The interplay of cultured pearls and fabries this spring is important. Designers use cultured pearls to blend with, or accent, their fabries: marvelous prints, slittery creps, delicate gaces-all in clean, fres has-a-breze colora-in combinations which take good ad vantage of the subtle creams, pinks and silvers of pearls.

## Your Weekly Horoscope

GEMINI (May 21-June 20): Symbols and games play an im-ortant part in your life in coming week, Gem. Thus you may ome to awareness of personal problem through the back door. key words for days ahead are simplicity, intensity and truth.

CANCER (June 21-July 22): A different and serenely a factory week shead, Moonbaby, Different in that a new friship may form which could be of the life-long wariety. And a factory because you will hear from one who has long been at from the scene. All and all a rather splendid week, don't

VIRGO (Aug. 23-Sept. 22): There is one close to you, Virg, who would give anything if you would just pay a bit more attention to your relationship. Your careless listening and obvious boredom are "the little foxes, that spoil the viness" of true understanding and compatability. Think it over. Then listen to your inner voice.

LIBRA (Sept. 23-Oct. 22): Week coming up like a daffodil.
Gaudy, gay, and full of promise. If you don't hang on to you
heart, however, you could very possibly get involved in a reckless, impassioned love offsir. Can you handle any more complications in this oppartment?

SCORPIO (Oct. 23-Nov. 21): Whew! Another typical Scory work scheduled. One filled with fun, flurry, flirting and occa sional flashes of insight: Just don't allow yourself to become flustered, for this will only lead to frustration. And then you'l really be flummoxed.

SAGITTARIUS (Nov. 22-Dec. 21): You are seldom wicked. Saj. but very often you are stupid and silly. In week ahead be more cautious lest you over-react to that which seems to threaten security or disturb routine. Conserve your energies, You'll need all you can muster before week is over. On last day of week plan a goody for one who is near and dear.

CAPRICORN (Dec. 22.Jan. 19): As you well know from past experience, Cap. this time of year is most exciting for you. All the world is turning green, and to you green means GO. So what's topping you? Enjoy, enjoy.

AQUARIUS (Jan. 20-Feb. 18): Busy, busy week ahead, Aquarius. Lots of fun to be had if you are in the mood. And you no doubt will be. You usually are. Should you travel, keep close contact with loved one. Spring is a babbling, idiotic time of year, you know, and restlissances tempts.

PISCES (Feb. 19-March 20): Give in to creative urges in week head, Pisces my pet. Remember that to create is to live in the uest sense. Last three days may find you experiencing intense cities to give: Do so. In the giving you will gain.

According to Rockwell.

Blue Island was thought to be an ideal\_example for such a center. It is the terminal point for the Chicago, Rock Island and Paeific Railroad and for the Illinois Central Railroad commuter lines.

However, the avowed tack of a regional plan was used as the reason for turning down Blue Island as a transportation center, and now it appears that the apparently most qualified local agency for developing a regional transportation plan does not want to "carry the ball."

GARRED JONES, chief of CATS, was not available for comment yesterday on his agency's apparent feck of in-terest in a regional trans-portation plan suitable to im-plement the planning of trans-portation centers in the Chi-cago region.

Day by Day\_

THERE MUST BE a se-creg pill that you and I don't know about had if these smart people have taken. And you know something? It works. Look how durnh we are and how smart they are. The intelligent people of this world have gone from civil tights, which-was.ao.new and-fashionalle only last year to pollution, Pollution in itself is not fashionalle only last year to not fashionalle only last year to

oblition. Pollution in itself is not fashionable. Anti-pollution is fix if you think that anti-pollution is new, you're wrong. When we weer growing up in smoky Cleveland on the banks of polluted Lake Erie, when-ever the wind blew the "wrong" way, we'ver warnod, "Hold your breath." There's a limit to how long you can hold your breath and live to

They will pick up every single plece of trash they see along the way and bring it to school. The class with the greatest amount of trash will be named the winner). They'll probably get a chance to ride the garbage

reason that this week over 20 million peopl will come to A&P to make their purchases.

## GUNSTON HALL, LORTON, VIRGINIA

Gunston Holl, hame of George Moson, outhor of the Virginia-Declarotion of Rights which was carried into the United States Constitution as the first ten Amendments, is in Forifac County, Virginia near Lanch. It was built between 1755 and 1758. The architecture and actual labor were done by William Buckland, a remortable croftsman wha had come from England as an indemuted servant.

The house, built of brick and along Georgion design, presents a graceful appearance but is neither large nor imposing. The interior, however, is one of the most impressive found in any home of the Colonial era. The superbarrand gardens were restored by the Gorden Club of Virinian.

A highlight of the interior is the formal Palladion Room, elaborately decorated with numerous handcrafted accents of Rome styling. A delicately hand carved marble fireplace immediately becomes the focal point of the room, further highlighted by a magnificent crystol chandelier.
